Event name – All About Op-amp

Date-6th February, 2016

Event conducted by speaker: Manisha Mane And Trupti Upasani.

IETE SAKEC organized a workshop on “All About Op-Amp” for the students from branches of Electronics and Electronics & Telecommunication. Students from FE, SE & TE enthusiastically registered for and attended the workshop.

The workshop was held on 6th March and was conducted on the Lab 206.. The Transient Analysis topic is very useful and important for M.E. students Prof. Manisha Man and Trupti Upasani madam elaborated the topic OP-AMP in depth to students. The workshop was an interactive session between the students and the speaker .Theoretical knowledge and its industrial applications were given to the students. Various functions of OP-AMP applications,advantages and disadvantages were discussed..Madam solved the queries of students regarding the topic.

Another event was organised which was focussing on numerical solving of Transient Analysis. Various tricky sums were discussed and solved during the event .In All About OP-AMP event all the topic is taught in detailed and theoretical knowledge were given to students.
