Memorandum of Understanding

Between

Minepro Minerals Pvt. Ltd.

&

Shah & Anchor Kutchhi Engineering College, Mumbai

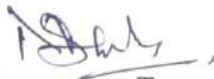

1. This MOU is prepared between above mentioned organizations under the aegis of the Industry Institute Partnership Cell (IIPC) / Research Work.
2. **Minepro Minerals Pvt. Ltd.** (hereby will also be referred to as "The Company") will undertake following responsibilities for providing necessary resources during the research internship.
 - 2.1. The company will allocate an associate named **Naman Dhaval Desai** (hereby will also be referred to as "Company Associate") as a facilitator between the company and the students working on this internship on the project titled **Object Recolorization using Image Mapping**.
 - 2.2. The company associate will provide an understanding of the chosen problem statement and will also aid in designing the algorithm for a sub-optimal / optimal solution.
 - 2.3. The company associate will provide a breakdown of the problem statement and the proposed solution and will provide the students working in this internship with multiple tasks and their respective deadlines throughout the course of the internship.
 - 2.4. On completion, the company will provide a completion certificate individually to all the students working in this internship and based on the quality of work, graded by our associate will also receive possible future opportunities from the company.
3. The students working in this internship (hereby will also be referred to as "The students") groups will undertake the following responsibilities for successful completion of research project internship within stipulated time frame.
 - 3.1. Code Development will be the responsibility of the students and the company associate. The students can take support from professional coders if necessary but under their supervision and responsibility.
 - 3.2. The students must file a copyright in the future, after the completion of the solution which should be authored by the company associate, the students and the college faculty-mentor but should also mention the company's name in the rest of the sections.
 - 3.3. In case the students wish to publish the work then it will be authored by the students, the company associate and the college faculty-mentor.
